OBJECTIVE

I am a Frontend Developer and a Backend enthusiast learning everyday to build skills. I want to become a Full stack Developer. Learning from bugs as it shows your growth of Skills. I love Coding and Cycling a lot. Always try to successfully complete the task offered to me by using my Technical Skills.

EXPERIENCE

LueurTech Software Solutions

03/12/2021 - Present

Web Development

Build a website using HTML, CSS and Javascript with fully responsive

PROJECTS

News App

News App which shows the latest news based on categories like General, Science, Sports, etc. I have created this using HTML, CSS, JS, ReactJs and News API to fetch data

Recipe App

Recipe App which gives the Recipe based on the ingredients available to the user. User just needs to add ingredients as an input and they will get recipe that can be created using it. I have created this project using HTML, CSS, JS, ReactJs and Recipe API to fetch data

Currency Converter

Currency converter which can convert the currencies of countries. It takes amount to convert into other currency and gives result. I have created this project using HTML, CSS, JS, ReactJs and Currency API to fetch data
